

Make the right decisions about your top-tier positions.

Use JobFit Executive throughout the employee lifecycle for your upper-level talent. It's a cost effective tool that's quick to administer and rich with valuable information:

- » **Control every stage of the employee lifecycle:** With JobFit Executive you can achieve optimal employee performance from pre-hire to development and beyond. Find out which candidates will be the most effective in upper-level positions.
- » **Empower talented employees:** When a candidate's job matches their reasoning abilities and core personality you can be sure engagement, motivation, and retention are likely to follow.
- » **Unearth valuable insights with Success Patterns:** By evaluating job requirements to identify traits that make employees successful, our experts help you create an assessment framework for every position.
- » **Make your organisation more effective and successful:** Fewer hiring mistakes, smarter onboarding, and more valuable coaching result in happier employees. A happier workforce is more productive and high-achieving.

The Future of Workforce Solutions

When it comes to high level job fit, questions abound.

How do you connect professionals with roles where they'll be happy, productive, and grow? Organisations must meet ambitious goals for selection, onboarding, management, and succession planning when dealing with leadership positions.

JobFit Executive enables you to engage and retain talented upper-level professionals, all via custom behavioural assessments that provide actionable data.
